

SPEEDCOAT

\$20.00

Speed Coat is a ready-to-use, Ceramic Waterless Car Wash, a Spray-On Quick Detailer and a Ceramic Coating Maintenance Spray. Now you can CLEAN - POLISH - PROTECT Virtually anywhere/ anytime.

How to Use It: **Just Spray On - Rub in & Wipe Off! Delivers top shelf quality everytime.**

How it works: Speedcoat contains water, special soaps and wetting agents that safely and effectively break down the dirt on contact. These soaps and wetting agents instantly liquifies the dirt and keeps it soft. The first damp microfiber towel can soak up 9 times its weight in water and pulls the liquified dirt away from the surface, as you gently wipe. The infused SiO₂ (ceramic coating capabilities) creates a "SUPER SLICK" water beading/sheeting effect that can last up to 6 months. The secondary, dry, soft microfiber towel buffs the remainder residue into a brilliant finish that you will love.

Many use : Speedcoat on Paint, Glass, Chrome, Plastic and other solid surfaces. You can use it in the sun or shade, on a wet or dry surface, and on a dirty or clean surface. It is a Multi-Use product - Use it on your car, boat, bike or boat, plus in the office, home and garage.

Batched in the United States containing SiO₂ and many other amazing properties.
